- \*\*\* **Shorter Walks in the Dolomites** by Gillian Price 2012, 2<sup>nd</sup> Ed: is referenced throughout as **"SWD" with Hike#**.
- \*\*\* **Rick Steves' Venice 2013. Croatia & Slovenia 2012.**
- **Lonely Planet: Hiking Italy 2010** describes longer routes
- **"GPS" in this document marks Tom's Waypoints for this device: Garmin 2595LMT GPS** (at Costco) speaks turn-by-turn routes! Add Europe module; lists lodging & phone #'s. **Garmin Basecamp** for PC pre-plans hundreds of Waypoints and records Routes (each Route must break into <600 miles and <30 waypoints). [Google Maps are much better, but they require a smart phone/tablet.]

- **US\$1.33 per € euro = 0.75 € per US\$** on 6/12/13

- Italy jet lag is **Seattle + 9 hours** (GMT+1 hour)

### Carry-on:

- <3.4 oz/100ml **fluid** bottles in quart bag
- all **camera batteries**, with **taped contacts**, each in **separate plastic bag** (NOT checked), one book **safety matches**, 1 **lighter** (NOT checked)

### Checked luggage:

- **Folding knife**, **hiking poles**, **non-critical items**, **hot drink thermos**

## Mobile phones in Europe

Tom has a **Sony Ericsson Equinox 4-band GSM phone**. **Buy SIM at phone store, get help how to check credit balance; make call** to shop's phone. If calling from SIM card's home country, expect ~10 to 20 cents per minute for **domestic calls to fixed lines**, more to **mobile phones**, more if **roaming** outside SIM's country, and **free to receive calls**.

➤ If you'll call home, buy **prepaid internation. calling card** in USA.

➤ In Italy, **buy an Italian SIM card**:

1. When calling **within Italy leave off the 39**, then dial **entire number, including initial zero** (no "city codes" anymore) plus area code (even from within it). Italian **land line numbers all start with a "0"** (041 for Venice, 06 for Rome, 055 for Florence). **Italian cell phone numbers** start with 338, 339, 439, or any other **trio of non-zero numbers**. Toll-free numbers in Italy now start with **800**, free within but cannot be called from outside. [www.reidsitaly.com/planning/comm/dialing\\_italy.html](http://www.reidsitaly.com/planning/comm/dialing_italy.html)
2. How to call **Slovenia** from **Italy**: dial **00 + 386 + number**.
3. Dial **Croatia** from **Slovenia**: **00 + 385 + Areacode + #**, or mobile phone: **00 + 385 + 9xx.xxx.xxx**. Only **within Croatia** do you dial the number (**0**) shown within parentheses.
4. In Italy, to call home, first dial Italian international prefix **00**, then your country code (US/CAN: **1**, UK: **44**, AUS: **61**, NZ: **64**), then **area code** and **local number**... Expensive!...unless using international calling card, or using Internet cafe email or Skype.
5. When **calling to Italy from outside**, start with your country's international dialing prefix (US/CAN: **011**, UK/IRE: **00**, AUS **0011**, NZ: **00**), then dial number with initial **39**.

# Slovenia

From Venice, popular Lake Bled is about 3 hours one way, located halfway around a loop of mostly autostrada and expressways. The Julian Alps are most impressive on the north side of Triglavski National Park between Kranjska Gora and Mojstrana on highway 201 in Slovenia (2.5-3 hours from Venice). Travel tips:

- **Hours** Shopping 8am-7pm weekdays, to 1pm Saturdays. Chain stores in big city centers may open Sunday morning, plus a few bakeries, all else **closed Sundays**. Banks 9am-12:30, 1:30-4 or 5pm weekdays. An ATM is called a **Bankomat**. Slovenia began using the € in 2007.
- **Phones:** Slovenia uses **tri-band GSM**. Buy €10 **SIM card** from Mobitel or others. Ignore the number within parentheses +386 (0)2 when **calling Slovenia from outside**, but **within Slovenia** you must dial it plus area code, for example: **02...**
- **Internet cafes:** €2-3/hour or free at hotels, libraries, and TIC tourist centers for 15 min. Look for **WiFi Točke**. **US Embassy:** Ljubljana (01) 200 5500, (1) 200 5555
- **TIC = Turisticnoinformacijski Centers:** free maps, lodging referrals for local rooms: **sobe** is much better value than hotels:
  - **sobe** = room with registered star ratings: \*\*\*private bath/AC, \*\*bath down hall, \*basic. Call between 9-10am on day of arrival, and most sobe or hotels will hold until 4pm without deposit. Ask for dates in the form *day/mo/year thru day of departure*.
  - **apartman** = private apartment w/bath + small kitchen
  - Guesthouses (**pension, gostisce, privatno prenociste, prenocisca**) are cozy and better value than hotels. Double rates are often quoted per person.  
**omladinsko prenociste** = youth hostel
  - Booking with travel agencies costs 10-30% extra. Save 20-50% on 3+night stays, vs listed rate.
  - **Planinski domovi** = mountain huts
  - Toilets: Moski/men, Zenske/women
  - **Tourist Farms:** [www.turisticnekmetjeje.si](http://www.turisticnekmetjeje.si)
- Young people speak **English**, older ones **German**.
- **Slovenian language:**
  - Two-word place names use lowercase on 2nd word.
  - *ulica* = *ul.* = street    *Trg* = Square
  - *cesta* = *c.* = road
  - *Cankarjeva ul* = poet Ivan Cankar's street = possessive case in street names.

## Gozd Martuljek

- **Gozd Martuljek\*\*** is a little town on highway 201 where Tom slept in 2011 admiring spectacular Martuljek mountain group.

## Mojstrana: gateway to Mount Triglav

- Drive through Jesenice to **highway 201** to picturesque **Mojstrana**. . [3hrs drive from **Cortina**.]
- Tourist Office: +386 (0)4 589 13 20
- **Lodging:** **Kmetija Psnak** farmhouse rooms/apartments €27-88, *apple class=3/4*, Zgornja Radovna 18, SI-4281, Mojstrana, **Tel:** +386 (0)4 589 11 52, **Mobile:** +386 (0)31 681 630

**Mount Triglav: Krma Valley** has best access (see further below).

Although neighboring **Kot valley** to **Stanicev Dom hut** is the easiest shortest non-technical route, it's least popular because Triglav isn't seen until reaching **Stanicev Dom hut** (1350m gain, 4:30hrs). **Vrata valley** is too steeply technical, where three long tough "secured-climbing" routes lead to Triglav summit:

1. **Pot Cez Prag** 1500m gain (rated "**Zahtevna**," meaning a demanding moderately-secured marked path). **Cez Prag** trail from **Aljazev Dom** hut to Kredarica hut, 5.30 hours: German Alpenverein built Cez Prag trail in 1800s, **technically easier** than Tominskova pot trail and a little bit longer, better for descent. From Aljazev Dom hut head up valley, pass Monument to Partisans (where Tominskova pot trail begins). After 30 minutes trail crosses over the creek to the left (straight path leads towards Luknja pass) and climbs steeply over grassy or snowy slope, reaching the first of a few rocky or cliffy steps, where first **metal pegs** are found. After 100 meters of vertical climbing path turns, goes far left, ascending over long grassy shelf, while crossing many couloirs. It turns right and begins to climb again steeply, in many sharp bends, sometimes over scree, which lies in between many rocky or cliffy steps. One of those steps is called Medvedova Skala or Bears Step, which is 10 meters high, smooth cliff, **secured by metal pegs and fixed steel rope**. **Scree slopes between cliffs are very steep and tough**. After 4 hrs from **Aljazev Dom** hut, join Tominskova pot trail above the highest lying step.
2. Tominskova Pot is very demanding and technical.
3. Bambergova Pot is very demanding and technical.

## Mount Triglav: Vrata valley, Aljazev Dom hut

- **\*\*\* Vrata is the most beautiful valley drive in Slovenia -- very deep:** nice mixed forest of beech, spruce and fir, along crystal clear Triglavska Bistrica creek. Sides above valley rise fast, especially on right: Skrlatica group. On right is beautiful **\*\*Pericnik waterfall**. Further, on left are cliffs of Cmir (2393m) and Begunjski Vrh (2461m). Then occasional views of Skrlatica group and its wild slopes below peaks of Kukova Spica (2427m), Dovski Kriz (2542m), Oltar (2621m), Rokavi (2646m), Skrlatica (2740m) and Dolkova Spica (2591m). In front is massive Stenar (2501m). Triglav's mighty north face is **Stena**. At 12km from **Mojstrana** village, we reach:
- **\*\*Aljazev Dom hut**, an excellent road-head overnight idea (1015m elevation, Tel: +386 (0)4 589 51 00 or +386 (0)4 589 10 30, serves food, 15-29 EUR with half board). 8 rooms with 23 beds, 115 communal beds; the winter room has 4 beds & a cooker. Admire the **close grandeur of Triglav, wild Dolkova Spica and Skrlatica, high cliffs of Stenar**. Walk 0.5 km to even more spectacular view at the "**Monument to fallen Partisans**" (further upwards are steeper, technical routes).

## Mount Triglav: hike Krma to Stanicev Dom hut

**Climbing Mount Triglav** (2864 m / 9396 feet elev) or **hiking to a scenic hut** is a Slovenian must-do. **Krma Valley** is the best day or overnight hiking option to scenic alpine huts.

Along drive to trailhead at end of Krma Valley, you can optionally stay in dorm rooms at [Kovinarska koča v Krmi](#) mountain hut (tel\_\_?).

1. **\*\*\* Krma Valley #98 in 100 Hikes in the Alps.**  
**Hike 5-6 hrs/6.3 miles one way** on a non-technical former packhorse hut-supply route (now done by helicopter) to the following scenic hut:  
**\*\*Dom Valentina Stanica / Stanicev Dom hut**  
12.5 miles/20k round trip, gain 4658 ft/1420 m.  
2332m elevation  
136 beds. Tel: 00+386 (0)51.614.772  
Mobile: 00+386 (0)51.345.806

2. or **\*\*\*Kredarica Hut** has superior view  
(aka **Triglav hut, Triglavski dom na Kredarici**)  
Slovenia's highest hut, 2515 m, is **spectacular!**  
Tel: +386 (0)4 531 28 64, Mobile: +386 (0)40 620 781 or +386 (0)4 203-31-81. **Reservations are highly recommended.** 140 beds, 160 bunks, €22 pp in 4-bed room or €14-18 dorm, serves food and drinks.

Hike to **Kredarica Hut** via **Konjsko Sedlo pass** from **Krma valley 6 hrs one way**, non-technical, **1650m gain**, from trailhead at 950m. "Very easy but long to Triglavski dom." Well marked with **red signs**. After forest, the rocky trail is not very fun but you have a nice valley panorama behind. After 1-1.5 hours, reach a nice plateau, then a second plateau with cows, then **Pragarca hut** at 1763m. Go forward then slightly keep right and find sign for Kredarica. Ascend forward to top of rocky section where you see in the distance a small zigzag path that leads up to Triglavski dom at 2515m. See peaks of small Triglav (left) and main Triglav (right).

**Ascent of Triglav** is non-technical, but is not recommended for those who fear heights: 1.5 hours up from Kredarica (contrary to 1-hour sign, due to waiting for descenders) and 1 hour back. No special gear is needed for the climb. (Some groups take a *via ferrata* set of gear, which might help during waits.) First, climb smaller peak and then take fascinating ridge to Triglav. Climb on rocks (class II) with fixed nails and ropes that make the climb "quite easy," although 2 or 3 places are exposed. Allow 4-5 hrs from Kredarica back to parking place.

3. Or scenic **Planika hut**, 2401m. Reservation for overnight not needed but recommended
